

SPACE2 BUSINESS

The right place to be for your business in space

28-29 November 2022

Prague Congress Centre, Czech Republic

Strategically situated in Prague, home of the European Union Agency for the Space Programme, and amidst the excellence in technology innovation support programmes, Space2Business & Brokerage addresses companies, startups, research institutions and other stakeholders searching for collaboration and market opportunities.

Two-day event comprised of 5 main parallel parts:

1. **Space EXPO** - more information about booth possibilities
2. **Brokerage session** - B2B meetings between companies, startups, research institutions and other stakeholders searching for collaboration and market opportunities
3. **Conference on how to boost space business with EU and ESA** - EU Space Programme, Cassini, Horizon Europe, ESA Priorities for 2025 (Results of the ESA Ministerial Council). Other topics focused on doing business in space, space industry cooperation, new partnership opportunities, downstream opportunities, space startups supporting initiatives and much more.
4. **Space Startup Pitch Competition** - ESA BIC champions together with startups from EU and EUSPA competitions will pitch against each other on the main stage
5. **Side events** - addressing various topics for both space & non-space audience; like Jobfair, Building Lunar Economy, Satellite-connected cars: an opportunity for Europe, Czech-Italian Business Forum etc.

Why participate?

- Find & meet your next technology partner/end-user through targeted and brief (20-minute) meetings
- Promote your technologies, R&D results, and know-how through effective networking between industrial/research partners
- Find out about institutional and commercial market trends and innovations, and discuss with those who understand your issues, with a focus on EU and ESA Programmes
