

**BUSINESS  
FINLAND**

# **DIGITAL RESILIENCE FOR SECURE SOCIETIES**

**April 2024**

**Kirsi Kokko**

**Head of Preparation, Digital Resilience program**

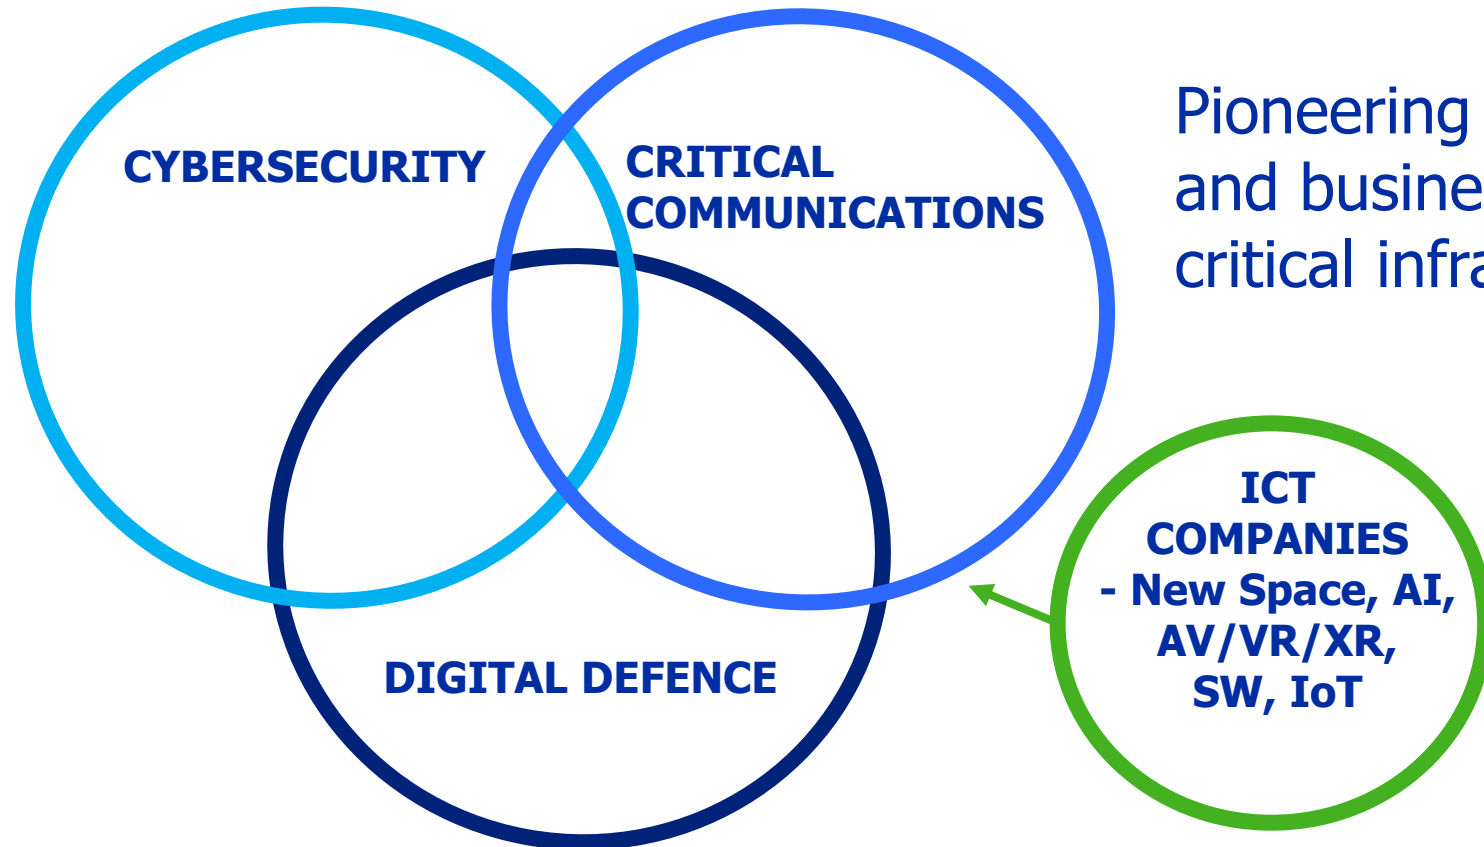

**Business Finland**

# THE LANDSCAPE

- Everything is connected, disruptive technologies such as genAI and quantum computing fast-forward digitalization
- Cybersecurity threats are the major technological threats for global economy
- Political instability and geopolitics boost new kind of hybrid threats
- Finland is a NATO member. This enables even closer collaboration between like-minded countries.

# COMPREHENSIVE DIGITAL RESILIENCE SOLUTIONS

Pioneering offerings for safety, security and business continuity of societies, critical infrastructures and businesses.

# END CUSTOMERS

- Providers of critical infrastructure solutions and services
- Defence sector organizations
- Organizations of public safety and security
- System Integrators, and other partner companies

# GOALS

- Excellence through collaborative RDI and ecosystems lead e.g. by leading companies
- Boosted value via international research and business collaboration (NATO members, EU calls and networks)
- Economic growth through new innovative offerings and increased export

# LEADING COMPANIES AND CHALLENGERS

## NESTE

Sustainable and globally scalable solutions to reduce the use of crude oil

## ABB

Platforms for the optimal generation and consumption of electricity in a carbon-neutral society

## FORTUM & METSÄ GROUP

New fiber-based products for consumer markets to reduce the carbon footprint.

## KONE

Mobility solutions for urban environments in line with the principles of sustainable development

## NOKIA 5G

Making Finland a pioneer in 5G networks

## NOKIA EDGE

Energy efficient edge-computing

## WÄRTSILÄ

Zero emission marine

## WÄRTSILÄ

Wide & Intelligent Sustainable Energy

## SANDVIK

Globally competitive electric and digital solutions for heavy machinery

## TIETOEVRY

Trust based digital services

## BOREALIS POLYMERS

Sustainable plastic industry

## MEYER TURKU

Climate neutral cruise ship and shipyard

## VALMET

Circular economy technology

## BITTIUM

Seamless and Secure Connectivity

## DANFOSS

Fossil free future

## KONECRANES

Zero4 material flow

## MIRKA

Shaping the Green Transition

## PATRIA

Disruptive digital capabilities

## ORION

A Digital Boost for the Finnish Pharmaceutical R&D

## PICOSUN

Chip zero

## PONSSE

Unlocking sustainability in off-road and commercial vehicles

## KEMPOWER

Heavy Electric Traffic Ecosystem

## VALIO

Food 2.0

# LEADING COMPANY PATRIA

## The eALLIANCE ecosystem for more secure societies

**Patria**

- The eALLIANCE ecosystem will develop and integrate digital solutions across civil, security and defence technologies for introducing disruptive technologies for highly integrated mobility platforms.
- It will combine civil and defence knowhow in the digital technologies for increased interoperability, efficiency and GHG savings in the defence sector, generating new turnover.

**eALLIANCE mission**  
is to integrate disruptive digital solutions across civil, security and defence technologies for more secure societies.

# THANK YOU!
